

ACHIEVEMENT FOR ALL – Implementation and Process Evaluation

INFORMATION SHEET FOR PARENTS

Your child's school has agreed to participate in a research project being run by the University of Manchester. We have been independently commissioned by the Educational Endowment Foundation to evaluate a programme called Achievement for All. The aim of Achievement for All is to improve children's learning and experience of school.

In a previous letter, we informed you of the Randomised Control Trial part of this project. I am now writing to provide you with additional information about this study that we are carrying out to examine the processes and practices of the Achievement for All model being implemented at your school. This work is being undertaken by myself (Dr Sophina Choudry), Prof Neil Humphrey and Dr Garry Squires.

As part of this process, we will be visiting your child's school termly in order to observe the teacher attached to this project. This may also involve lesson observations. This is for your information. However, your child is not a participant in this part of the study.

If you would like any more information or have any questions about the research project, please telephone Dr. Sophina Choudry on 0161 275 3534 or email her at Sophina.choudry@manchester.ac.uk.

Yours sincerely,

Dr Sophina Choudry
Research Associate
